14x14	\$3470
14x16	\$3607

Alan's Factory Outlet vinyl pergola kits are made by the Amish and are precut with all of the hardware included for an easy assembly.

Peak height on vinyl pergola kits is 8' tall.

The headroom clearance under the 2x6 header is 6' 9".

All fasteners of bolts and screws are stainless steel to give you a longer lasting pergola.

The outside to outside measurements from post to post is 8" less than the size. For example a 10x12 size outside to outside of the post measurement is 9' 4" x 11' 4".

From roof overhang to overhang the outside to outside distance is 1' 6" wider and longer than the vinyl pergola kit size. For example on the 10x12 pergola the outside to outside roof overhang is 11' 6" x 13' 6".

All of the sizes of vinyl pergola kits have 4 posts. The 6"x 6" post is a pressure treated post with a white pvc material.
